

Day 6 :10/01/2022

Topic : Adding business logic to application

Milestone/Activities: process automation

The screenshot displays the Salesforce Process Builder interface for a process named "Application Form Process Master". The process flow is as follows:

- START** leads to an **Application Form** step.
- The flow then reaches a decision diamond: **Ready To Join Field Is Checked**.
- If **TRUE**, it proceeds to **IMMEDIATE ACTIONS**, where the action **Create a student rec...** is highlighted. This action is followed by a **STOP** step.
- If **FALSE**, it proceeds to another decision diamond: **Add Criteria**.
- If **TRUE**, it proceeds to **IMMEDIATE ACTIONS**, followed by a **STOP** step.

The right-hand pane shows the configuration for the **Create a Record** action:

- Action Name\***: Create a student record
- Record Type\***: Students
- Set Field Values** table:

Field *	Type *	Value *
Address	Field Reference	[Application_Form_cj]A...Q
Date Of Birth	Field Reference	[Application_Form_cj]D...Q
Guardian Name	Field Reference	[Application_Form_cj]G...Q
Phone	Field Reference	[Application_Form_cj]P...Q
Application Form	Field Reference	[Application_Form_cj]Id...Q

The bottom of the image shows the Windows taskbar with the search bar and system tray indicating 8:21 PM on 1/16/2022.
